

# *Loyola Campout* July 13, 14, 15

## Loyola Men's Group

Experience is a wonderful teacher. Over the years, the men of Loyola have proven time and again, that attending the annual campout has given them an opportunity to take their Programs to new plateaus. Spending a weekend together gives us a chance to make new friends, be a good friend, and see how other families in Recovery act toward and around each other. If you've ever felt alone at Loyola before, you never have to again. Also know that there will be plenty of us there without families, but we will be there! So, here's the deal: Nobody who wants to go, stays behind. Call me and I'll help you with the details. Ralph H

Lake Simtustus Park & Campground is located between Warm Springs and Madras.

Many of our more generous members have shared their boats and watercraft. Your kids will have a special time. There is fishing, some catching, and plenty of lying to go around.
